

Whale Shark and Manta Ray Interaction

PADI Certified

PADI eLearning

Come dive in and start your adventure today with the PADI Open Water Diver course.

Experience the ultimate swim and dive adventure, with the gentle, giant, Whale Sharks and Manta Rays. Join with our tour partners just a few hours away in the resort of Donsol, to complete your tour.

WHALE SHARKS

This breath taking sight and activity can only be believed at close hand, another of nature's great wonders.

These amazing creatures arrive as early as November (The official season start's from February) running until the end of May. Whale Sharks migrate to the Donsol waters in vast numbers, to take advantage of the dense food concentration.

Visiting scientific specialists, concerned nature activists, local tourist officials and professional/enthusiast divers have established guidelines on proper Whale Shark watching. This has been initiated not just for safety reasons (Collisions etc), but to defend and ensure that the Whales are not over exploited.

EXPLORE THE SPECTACULAR MANTA BOWL

During December to May the strong current from the San Bernardino Strait brings a plentiful supply of microscopic plankton, small fish, and tiny crustaceans that provides the ideal diet for the Mantas and the Whale Shark.

The Manta does not have any teeth, they funnel their food into their mouth while they swim, using their two large flap-like cephalic lobes which extend forward from their eyes.

It also relies on wrasse like Remora fish to remove small parasites from their skin and gill cavities. The much needed wrasse are abundant around Donsol, providing the ideal Manta cleaning stations.

So Donsol provides an ideal feeding and cleaning center for the Manta.

Biri Island has so much diving to offer.

There are many dive sites to choose amongst the 7 islands of Balicuatro. That includes Biri; these islands offer challenges to all diving grades, from the beginner to the very advanced

Take an easy entry from a beach, or ride the drift dive in the San Bernardino Strait you can only compare this drift dive to Tubbataha (Only for the adventurous and experienced divers).

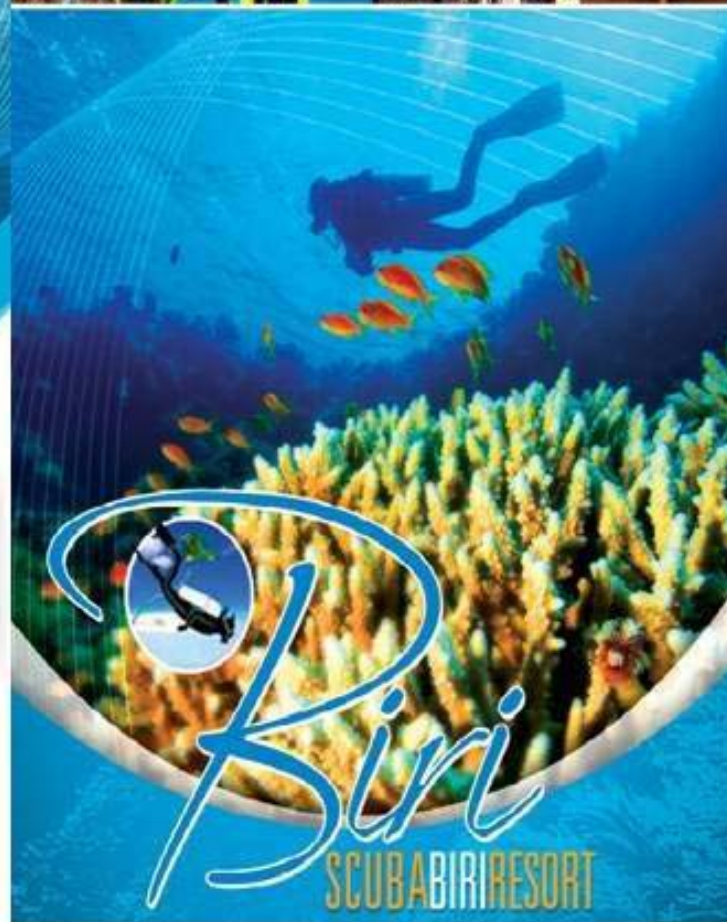

Our staff will also update you on the site locations with best fish, coral and other information to help you choose your dive destinations.
